

How to create an account on Wikispaces

1. Go to the wikispaces website at www.wikispaces.com.
2. On the left hand side of the screen type a login name, a password and your email then click “Get Started”. Below is a picture of the login screen with my username as an example.

The image shows a screenshot of the Wikispaces 'Get Started' login form. The form is set against a light blue background. At the top, the text 'Get Started' is displayed in a bold, black font. Below this, there are three input fields: the first is a yellow box containing the text 'jacobs_carrie'; the second is a yellow box containing a series of black dots representing a password; the third is a white box with the label 'Email' in blue text. At the bottom of the form is a large, red, rounded rectangular button with the text 'Get Started' in white.

3. You will automatically be taken to your new Dashboard. This is your homepage for wikispaces. This page will show you the wikis that you have created as well as the wikis you have joined.
